Product Discontinuation Notice:

VM7710A Air Pen Marking Machine / VM7730A Ultrasonic Pen Marking Machine

Dear customers,

Thank you for using our products. This Product Discontinuation Notice involves the manufacture discontinue and End-of-Life of VM7710A Air Pen Marking Machine and VM7730A Air Pen Marking Machine.

Because the supply of VM7710A and VM7730A's major components is discontinued, we have been forced to decide to terminate sales of these marking machines.

We apologize for the inconvenience that this end-of-life may cause our valued customers.

We will do everything possible to provide consumables and spare parts when you need them. However, the discontinuation of the manufacturing of spare parts by some of our suppliers will render this impossible at some point in the near future.

As succession machine, we provide VM3710 Air Pen Marking Machine and VM3730 Ultrasonic Pen Marking Machine. We are delighted if you choose these succession machines instead of VM7710A and VM7730A.

1. Table of Successor model

Discontinued Model	Successor Model
VM7710A Air Pen Marking Machine	VM3710 Air Pen Marking Machine
VM7730A Ultrasonic Pen Marking Machine	VM3730 Ultrasonic Pen Marking Machine (VM7830B Ultrasonic Pen Marking Machine)

For questions, please feel free to consult us.

Best regards,

Hiroshi Kai
President of Vector Co., Ltd.
